2022 VILLAGE PARK "LANDSCAPE OTHER" BUDGET PROPOSAL

Second Island Rejuvenation Project	$3,361.92*
Hemlock Treatment	$ 50.00
Unplanned Expenses	$ 500.00
TOTAL	**$3,911.92**

SECOND ISLAND PROJECT SCOPE

REMOVE:

8 Laurel shrubs

Reason: The laurels have become large and are distorted from years or pruning around electrical posts. Trees once in this island were removed a few years ago. Since 2 of the 3 electrical posts are not in use any longer and will be removed, the laurels are not needed to hide them. This project was proposed in 2021 but tabled due to budget concerns.

*Project total includes $350 for an electrician including trip charge, 1-2 hours

PLANT:

2 Green Vase Zelkova trees

4 Dwarf Goldmops Cypress

5 Dwarf Butterfly Bushes - 'Blue Chip' or 'Pugster Blues'

ADDITIONAL WORK NEEDED:

Reduce the height of the bed that has built up from annual mulch applications.
